

To North Harbour Table Tennis

On Friday 20th July we turned up early to the schools competition.

Normally the lights are turned on so players can have a hit before schools start but on this night the lights in the upstairs tables were turned off. We asked if we could train in there and were told yes. We used our keys to turn on the lights on 3 tables and started to train.

Other players waiting for the schools competition to start wandered in and started having a hit on the other tables with the lights off.

After ten minutes John came in and instantly started yelling abuse at everyone and yelling that everyone had to get out. He didn't explain why.

We told him we had keys and had asked to train. He kept yelling and told us to get out. He was angry and didn't make any sense. He didn't explain why we couldn't use the tables.

We are all high performance members and have paid a lot of money to get keys to allow us to train anytime.

We feel that being yelled at and bullied without reason is unacceptable

This is not the first time we have witnessed this behaviour.

We would like to formally complain about this treatment.
